Watch a silent precision exhibition drill that exemplifies the pride, poise and perfection of the US Coast Guard.

SAIL BOSTON

Charlestown Navy Yard

Welcome to Sail Boston 2017 in the Charlestown Navy Yard!

The National Parks of Boston, Sail Boston 2017, the City of Boston, USS Constitution, USS Constitution Museum and the Charlestown community will celebrate Boston's nautical history with a full lineup of food, live entertainment and music from around the world. Activities on Saturday, June 17 and Sunday, June 18 will include a Swing Dance, maritime and traditional crafts demonstrations ship tours and ranger programs.

Established in 1800, the Charlestown Navy Yard was one of the original six yards created to support the young United States Navy. For the next 174 years, the yard served as a hub of innovation, an employer of skilled workers, and a home to Naval officers, sailors, and U.S. Marines.

The heart of the original Navy Yard is preserved as a historic site open to visitors year-round. The most popular attractions in the yard are the two historic warships who call the Navy Yard home: The undefeated sailing frigate USS Constitution, the oldest commissioned warship in the US Navy and America's Ship of State, and the 20th century Fletcher class destroyer USS Cassin Young. Both are examples of what the yard built, repaired, and maintained for two centuries. The two ships also illustrate the transition that the Navy underwent as it shifted from timber and sail to steel and steam. Museum exhibits about the Constitution, Cassin Young, and the Navy Yard, are at the nearby USS Constitution Museum and the Charlestown Navy Yard Visitor Center.

The Charlestown Navy Yard is part of Boston National Historical Park, that, along with Boston African American National Historic Site and Boston Harbor Islands National and State Park make up the National Parks of Boston.
